Arjona Chandelier

Eight bulbs, warm to cool

The Arjona runs eight G9 LED positions across a single 100 cm metal bar, each enclosed in a small glass shade that diffuses the output downward without a narrow beam. The bar hangs on a fixed pipe mount, so it sits stable above a rectangular dining table without any swing. Remote control adjusts both brightness and colour temperature — 3000K for a warm evening to 6000K for a brighter work surface.

SPECIFICATIONS · SHARED

DIMENSIONS	L100 cm x H64 cm	DIMMABLE	Yes (optional, remote or app)
WATTAGE	40W (4,000 lm)	COLOUR TEMP	3000–6000K adjustable
WEIGHT	4 kg	VOLTAGE	90–260V
MATERIAL	Metal, Glass	MOUNT	Pipe erected, fixed 60 cm drop
FINISH	Gold	SLOPED CEILING	Not compatible
LIGHT SOURCE	LED G9 (replaceable, included) x 8	INSTALL	Hardwired

EMITTING COLOR

WARM WHITE (3000K) | COOL WHITE (6000K)

REMOTE CONTROL (DIMMING + 3000K TO 6000K)

REMOTE CONTROL + APP (DIMMING + 3K TO 6K)

KEY FEATURES

- 100 cm linear span — scaled for rectangular tables and kitchen islands
- Eight G9 positions — even light distribution across the full bar length
- Remote adjusts warm to cool (3000K–6000K) and dims
- Pipe erect mount — fixed and stable, no swing above the table
- 40W at 4,000 lm — efficient output across the full span
