PRODUCT SHEET · PENDANT LIGHT

Nim Pendant Light

Amber glass, warm as evening light

The Nim Pendant Light wraps a scalloped amber glass shade around a single LED, so the light it casts is warm and golden rather than white and direct. The floral-edge scalloping softens the silhouette at the bottom, adding texture without fuss. Available in four shade colours — green, brown, clear, amber — with a replaceable E27 and an adjustable drop to 1 m.
