PRODUCT SHEET · PENDANT LIGHT

Bork Pendant Light

Capsule pendants cascading at varying heights

The Bork hangs as a cluster of capsule-shaped aluminium pendants, each on its own cord, each at a slightly different drop. Together they build a layered column of light — warm glows staggered through the air above a dining table or foyer. Two sizes, black or white, cord adjustable to 1.2 m, sloped-ceiling compatible.

SPECIFICATIONS · SHARED

MATERIAL	Aluminium
FINISH	Black, White
