PRODUCT SHEET · TABLE LAMP

Geislingen Table Lamp

Smoked glass dome, gold base, warm light

The Geislingen Table Lamp sits a rounded smoked glass dome on a slim gold-toned aluminium base. The smoke in the glass takes the edge off the bulb — the light that reaches the room is soft and warm rather than direct. A replaceable E27 LED, two sizes from 25 to 38 cm tall, and a corded plug that needs no installation beyond a surface and a socket.

SPECIFICATIONS · SHARED
