PRODUCT SHEET · CEILING LIGHT

Guebwiller Ceiling Light

Coloured glass cylinder, one warm opal glow

The Guebwiller is a cylinder of coloured glass around an opal shade, so it reads as a clean form by day and a warm lantern by night. The opal diffuses the G9 LED into a soft, even glow — no hotspot, no glare. Mount flush from the ceiling or swing it onto a wall bracket that's included in the box. Two sizes, three colours — white, green, orange — and a 50,000-hour rated LED.

SPECIFICATIONS · SHARED

DIMENSIONS	D25 x H (pendant drop) cm · D35 x H cm
WATTAGE	5W (500 lm)
WEIGHT	1.2 kg
