Kaysersberg Table Lamp

Blown glass shade, mid-century tripod

The Kaysersberg sets a blown glass shade on a three-legged metal tripod — a mid-century form that has aged well because the proportions are right. The shade is clear on the inside, coloured on the outer layer, so the light passes through twice and arrives warm. White, cream, orange, red, or turquoise shade; chrome or copper base; replaceable E27 bulb.

SPECIFICATIONS · SHARED
