PRODUCT SHEET · TABLE LAMP

Namdo Table Lamp

Mid-century glass globe, bold retro colour

The Namdo Table Lamp puts a glass globe on a chromed metal body and makes no apology for the reference — this is mid-century without the museum dust. The globe diffuses the E14 LED into something gentle and warm, right for a bedside table or a desk. Three colours: white, red, or yellow. One switch, one plug — place it and use it.
