Santanyi Wall Light

Stacked tiers, soft even light

The Santanyi builds its form from stacked aluminium tiers, each one wrapping a diffused panel that softens the light before it reaches the wall. The repetition gives the piece a quiet rhythm — more sculpture than fixture when it's off, and evenly lit without hot spots when it's on. Smooth aluminium keeps the whole thing light in the hand and easy to mount.

SPECIFICATIONS · SHARED

MATERIAL	Iron, aluminium
FINISH	Copper
LIGHT SOURCE	Integrated LED, 15W (1500 lm)
SIZE	D 7.8" (20 cm) x H 21.6" (55 cm)
