PRODUCT SHEET · TABLE LAMP

Sloter Table Lamp

Spiral aluminium, warm even glow

The Sloter is built around a spiral of aluminium that climbs from base to crown, the integrated LED tucked inside an acrylic diffuser at the peak. It reads as sculpture from across the room and lamp from close up — warm, even output with no visible source. At 76.5 cm tall on a 27.5 cm base, it suits a bedside, a desk corner, or a low side table without dominating the surface.

SPECIFICATIONS
