Soultz Table Lamp

Chrome and glass, Bauhaus on a desk

The Soultz Table Lamp has the proportions and restraint of mid-century design: a glossy, moulded glass shade sitting on a chromed iron body in orange and chrome finish. The glass diffuses the bulb into a soft, even glow — no glare, just warm illumination. Plug it into any socket, set it on a desk, a console, or a bedside table, and the lamp does the rest. Replaceable E27 LED at 15W, in a compact 20 x 30 cm footprint.

SPECIFICATIONS
