PRODUCT SHEET · PENDANT LIGHT

Twig Pendant Light

One globe, four structures, infinite clusters

The Twig Pendant Light is a single globe — glass on iron — that comes in four structural configurations: circle, oval, straight, or canted in small or large. Each one hangs from a standard ceiling mount and works alone or alongside others. Combine several in different orientations and you get depth, geometry, and layered light that no single chandelier could give you. Brass, black, or chrome finish.

SPECIFICATIONS · SHARED

MATERIAL	Glass, Metal (Iron)
FINISH	Brass / Black / Chrome
LIGHT SOURCE	LED E27 (replaceable, included), 15W (1500 lm)
DIMENSIONS	Circle D30cm / Oval H20cm / Straight D15cm / Canted Small H15cm / Canted Large H20cm
